

SOP: SEO Monthly Meetings

Purpose

Monthly SEO meetings exist to connect performance trends to strategy, align on business objectives, and present forward-looking plans.

Where bi-weeklies are about **momentum and relationship**, monthlies are about **insight and direction** — tying the past month's work to measurable impact and the next phase of growth.

Meeting Length: 45–60 minutes

Prep Time: ≤ 60 minutes

Responsible for Meeting Prep & Deck Creation : Account Manager (AM)

Responsible for Emails & Insights: Associate Director (AD)

Informed: Director of SEO

Scheduling: Recurrent First week of the month

Note: Try and never schedule meetings on Fridays to protect your working time

Meeting Prep

During prep, you'll be creating the following:

1. **Executive KPI Summary** → Top-level performance vs. goal (Organic Sessions, VOBs, conversions).
2. **Performance Deep Dive** → What moved the needle: top gains, key learnings, challenges.
3. **Strategic Initiatives Update** → Long-term project progress (content pillars, CRO, site structure).
4. **Next Month's Plan** → Strategic priorities, risks, and upcoming campaigns.

5. **3–4 Slide Deck** → Simple, visual summary (details below).

6. **Post-Call Recap Email** → Confirm decisions, priorities, and key actions.

👉 **Keep the meeting visual, not verbose.** The slides should *guide the conversation*, not read like a report.

🧠 **Trusted Advisor Reminder:**

You're not showing data — you're showing *meaning*. Focus on what changed, why, and how you're adjusting strategy accordingly.

Google Meet Setup Info

Meeting Title: [Client Name] Webserv Monthly SEO Strategy Review

Duration: 45–60 minutes

Frequency: Every 4 weeks (at the beginning of a month)

Meeting Owner: Account Manager

Required Attendees

Role	Purpose
Associate Director (AD)	Leads strategic discussion, connects SEO to business impact.
Account Manager (AM)	Provides tactical context and relationship continuity.
Client POCs / Marketing Contact	Key decision-maker for SEO initiatives.
PPC AM (optional)	Joins if PPC integration or shared campaigns
Director of SEO (optional)	Only for very specific clients that Trevor has approved, or clients in a risk position (approved by Rebecca/ Associate Directors)

Agenda Template

Purpose:

To review monthly SEO performance, discuss insights, and align on the next strategic phase that supports business goals.

Executive Overview & KPI Trends

- Review key NSMs from (Sessions, VOBs).
- Explain performance context — what influenced results and why.

What Moved the Needle

- Review: What drove growth, what needs attention.
- Highlight cause → effect relationships.

Next Month's Focus & Alignment

- Review: next steps, campaigns, and priorities.
- Align with PPC or other departments if needed.
- Confirm client input or approvals required.

TEMPLATE END

Goal: To connect SEO performance to business outcomes, share key learnings, and align on strategic priorities that drive growth, reinforcing trust through clarity, insight, and proactive direction.

Monthly SEO Meeting Prep Checklist

To prepare a clear, data-backed narrative that connects SEO performance to business results and future priorities.

The Associate Director (AD) leads strategy and insight; the Account Manager (AM) supports with data, deliverables, and tactical details.

Prep should take **no more than 60 minutes** total.

Step 1: Executive KPI Summary

Capture the high-level performance story for the month — what changed and why.

Pull From: Looker Studio, CallRail/CTM (if available).

Checklist:

- ☐ Collect month-over-month (MoM) and quarter-over-quarter (QoQ) data for:

- Organic Sessions (always)
- Verified Organic Leads (VOBs) or Calls (if tracked)
- Conversion rate or goal completions (if tracked)

☐ Identify KPI pacing vs. goal: *On Track / Behind / Ahead*

☐ Add one 2–3 sentence insight summary explaining what's driving movement:

"Organic sessions increased +10% MoM due to stronger visibility in IOP and detox clusters. Lead conversions steady — no drop in quality or volume."

Output:

- Slide 1 (Executive KPI Overview)
- One-sentence summary to open the meeting.

Trusted Advisor Tip: Frame the data like a business outcome, not a report. *"Here's what's happening in search, and what it means for your pipeline."*

Step 2: Keyword Performance Analysis

Show where visibility is growing or contracting, and what that reveals about user intent and opportunity.

Pull From: Google Search Console or Semrush (Rank Tracker / Keyword Groups).

Checklist:

☐ Identify top 5 keyword clusters relevant to business goals (e.g., Detox, IOP, Outpatient).

☐ Capture MoM changes in:

- Average position
- Impressions
- Clicks

- ☐ Highlight top *gaining* and *declining* clusters.
- ☐ Note any shifts in search intent (e.g., from informational → transactional).

Example insight: "IOP cluster gained +22% impressions and +2.4 avg. position — likely driven by stronger internal linking and recent blog coverage."

Output:

- Visual table or heat map (Slide 2)
- 3 bullet insights for "What Moved the Needle."

Trusted Advisor Tip: Tie clusters to conversions or future opportunities:
"As visibility grows for IOP terms, this becomes a strong retargeting pool for PPC."

Step 3: Conversion Page Performance

Highlight what's actually turning visibility into calls or form fills.

Pull From: Looker Studio, CallRail, or GA4 (Landing Page Report).

Checklist:

- ☐ Identify top 3–5 organic conversion-driving pages.
- ☐ Note changes in traffic, conversions, and keyword sources.
- ☐ Cross-reference performance with ranking movement (e.g., "Admissions page improved 5 positions, calls up 18%").
- ☐ Flag underperforming pages for CRO or content refresh.

Output:

- Conversion highlights included on Slide 2 (as part of "What Moved the Needle").
- 2–3 talking points for client discussion.

Trusted Advisor Tip: Use this section to shift the client's focus from vanity metrics to revenue impact:

"These three pages are driving 60% of calls, our goal is to expand that footprint."

Step 4: Content Impact – 30-Day Lookback

Show ROI trajectory on content created ~30–45 days ago — proving that deliverables drive growth.

Pull From: GSC (Page report), Google Analytics (future - looker studio or Airtable)

Checklist:

- ☐ List new or refreshed pages published 30+ days ago.
- ☐ Record performance snapshot:
 - Current position & impressions
 - Clicks vs. prior month
 - If any of these contributed to conversions
- ☐ Identify early traction and improvement opportunities.

Example insight: "The 'Outpatient vs. Inpatient' guide published 6 weeks ago is now ranking #8 for 'Dallas IOP' — expected to reach top 5 next month."

Output:

- Table or quick visual integrated into Slide 3 or Slide 2 (depending on layout).
- Talking point during "What Moved the Needle."

Trusted Advisor Tip:

Clients love to see proof of momentum. Use this to connect output → performance → business value. This also reinforces SEO as an investment, not purchasing deliverables.

Step 5: Strategic Initiatives Update

Keep visibility on long-term, high-value projects and accountability clear. Keep this very high level, the monthly call is an alignment check not reviewing deliverables.

Pull From: Asana quarterly project tracking

☐ Review current strategic initiatives:

- Site architecture or technical cleanup
- Content pillar builds
- CRO testing / UX improvements
- Local SEO / GBP optimization

☐ Mark each as **Complete / In Progress / At Risk**.

☐ Add 1–2 bullets of measurable value or impact.

| “Technical audit fixes reduced crawl errors by 24%, improving index coverage.”

Output:

- Slide 3 (Strategic Initiatives)

Trusted Advisor Tip: This section shows stewardship, emphasize consistency, not just performance spikes.

Step 6: Next Month's Focus & Strategic Alignment

End prep by defining the next 3–4 focus areas, connecting them to client business goals.

Checklist:

☐ Choose priorities based on data trends and business context:

- Strengthen high-performing clusters
- Optimize underperforming conversion pages
- Continue CRO or local expansions
- Plan new content aligned with business launches or seasonality

- ☐ Identify cross-functional dependencies (e.g., PPC, design, dev).
- ☐ Add 1 forward-looking opportunity (cross-sell or test).

Output:

- Slide 4 (Next Month's Focus).

Trusted Advisor Tip: This is where you move from *reporter* → *strategist*. End every plan with a rationale: *"We're doing this because it connects directly to your admissions growth goal."*

Monthly SEO Meeting – Pre-Call Email Template

Responsible: AD

Send this email 1 business day before the monthly meeting to set context, highlight key KPIs, and help the client come prepared for a strategic discussion, not a tactical update.

Subject: [Client Name] – Monthly SEO Strategy Review

Hi [Client Name],

Looking forward to our strategy review tomorrow. Below is a quick snapshot of what we'll cover, along with this month's KPI highlights.

Performance at a Glance

- Organic sessions: [X]% MoM ([Up/Down] from [last month])
- Verified organic leads/calls: [X]% MoM
- Key takeaway: *[1-sentence insight — what's driving movement or why performance shifted]*

Example: "Organic visibility improved across IOP and detox clusters, driving consistent call volume despite seasonality."

What's on the Agenda

- 1 Performance Overview:** KPI trends and what's influencing them.
- 2 What Moved the Needle:** Cluster visibility, conversion pages, and content impact.
- 3 Next Month's Focus:** Strategic priorities and alignment with business goals.

We'll also take a quick look at:

- Top keyword cluster shifts
- Conversion-driving pages
- Content performance from ~30 days ago

This meeting is strategic, not tactical — the goal is to connect performance to business outcomes and confirm next month's direction.

Please take a moment to review the attached slides before our call.

If there's anything new on your end (programs, campaigns, leadership goals), feel free to share so we can align our next phase accordingly.

See you on [day/time].

Best,

[Your Name]

Associate Director, SEO | Webserv

Monthly SEO Meeting – Post-Call Recap Email Template

Responsible: Associate Director

Send this email within 24 hours after the monthly meeting to confirm key insights, agreed actions, and next strategic priorities — reinforcing trust and clarity between sessions.

There's pre-built templates in Attention you can use to generate this automatically, or if you prefer use the transcript and this prompt in Claude to generate this:

I'm writing a post-call recap email for a client following their Monthly SEO Strategy Review meeting.

Please review the transcript below and summarize it into a short, confident, and client-facing recap email using this structure and tone:

Context:

- This is a monthly strategic call, not a status update.
- The tone should feel trusted-advisor: confident, collaborative, forward-looking.
- Avoid filler language or "meeting notes" formatting.
- Use strong, clear phrasing that reinforces partnership and business alignment.

Email Format:

Subject: [Client Name] – SEO Strategy Review Follow-Up & Next Steps

Body Sections:

 Key Insights

Summarize 2–4 key takeaways from the discussion, focusing on:

- Keyword cluster or visibility shifts
- Conversion page performance or lead quality
- Content performance from the past 30–45 days
- Any business context shared by the client

 Next Month's Focus

List 2–3 strategic priorities or next initiatives agreed upon in the meeting.

 Client Action Items (If Any)

Note anything the client committed to or was asked to confirm

before the next meeting.

Close:

End on a confident, relational note:

"We'll **continue** tracking **KPI** trends and follow up **in** the next monthly review. If **new initiatives** come up, we'll fold them into the **SEO** roadmap."

Tone & Style:

- Keep under **250** words
- No bullet nesting
- Prioritize clarity and partnership over formality

Transcript:

[Paste transcript here]

Subject: [Client Name] – SEO Strategy Review Follow-Up & Next Steps

Hi [Client Name],

Thank you for joining today's strategy review — here's a quick summary of our key takeaways and next steps:

Key Insights

- [Example: "Detox and IOP clusters continue to trend upward; 'Outpatient vs. Inpatient' content now ranks #8 and driving consistent clicks."]
- [Example: "Conversion pages performed strongly — Admissions and Therapy pages account for 60% of total organic leads."]
- [Example: "Technical fixes reduced crawl errors, setting us up for stronger indexation next month."]

Next Month's Focus

- [Example: Strengthen detox & IOP clusters with supporting blogs and internal links.]
 - [Example: Refresh older content that's plateauing in rankings.]
 - [Example: Coordinate CRO testing and keyword intent mapping with PPC team.]
-

Client Action Items (If Any)

- [Example: Share updated hours or new location info for GBP.]
 - [Example: Confirm new program details before next content sprint.]
-

We'll continue tracking KPI trends and follow up in the next monthly review.

If any new initiatives come up before then, please loop us in so we can fold them into the SEO roadmap.

Thanks again for your partnership and collaboration — we're excited to keep this momentum going.

Best,

[Your Name]

Associate Director, SEO | Webserv

Post-meeting Internal Recap (For Client Slack Channel)

To document key takeaways, internal actions, and client sentiment from the monthly call — keeping cross-functional teams aligned without needing to rewatch the recording.

Responsible: Associate Director

Due: When the follow up email is sent

How to Generate the Internal Recap Using the Transcript

There's pre-built templates in Attention you can use to generate this automatically, or if you prefer use the transcript and this prompt in Claude to generate this:

I need an internal recap from the transcript of a Monthly SEO Strategy Review call.

Please summarize it into a short internal post using the following structure and tone:

Context:

- This summary is for internal use (SEO, PPC, and leadership).
- Keep it clear, concise, and actionable – no client-facing polish.
- Focus on insights, blockers, risks, and opportunities.

Internal Recap Format:

1 Highlights / Wins:

- [List 2–3 clear performance or strategy wins discussed.]

2 Risks / Challenges:

- [Summarize any blockers, missed deliverables, or concerns.]

3 Next Steps / Actions:

- [List internal follow-ups – what Webserv owns, by when, and who's responsible.]

4 Client Sentiment / Relationship Pulse:

- [Briefly note tone of call – positive, neutral, or tense – and any comments indicating satisfaction, risk, or upside potential.]

Tone:

Professional, direct, and solution-oriented – like a quick standup note for internal teams.

Transcript: [Paste transcript here]

Where to Post:

Post the generated summary in the **#[account-name]** Slack channel.

Example Format for Posting:

 Monthly **SEO** Internal Recap – [Client Name] ([Date])

****Highlights / Wins:****

- Detox content cluster up **+18%**, driving **new conversions**.
- **CRO** test improving form conversion by **+12%**.

****Risks / Challenges:****

- Client low on approvals; need to confirm next content batch timing.

****Next Steps / Actions:****

- **AM:** Confirm **new content** sprint dates.
- **AD:** Sync **with PPC** on **IOP** retargeting plan.

****Client Sentiment:****

Positive – Client expressed confidence **in** results; opportunity to discuss integrated **PPC** support next month.

Monthly SEO Meeting Deck Outline

Deck Length: 3–4 slides (max)

Goal: Tell the month's performance story clearly — what changed, why, and what's next.

Tone: Strategic, confident, and conversational (trusted advisor voice).

Design: Clean, minimal visuals — no cluttered dashboards. 1–2 visuals per slide max.

Template: Google Slides Template for Monthly meetings

Slide	Purpose	Narrative Question to Answer	Owner
0	Title Slide		AM
1	Executive KPI Overview	"What happened and why does it matter?"	AM + AD
2	Keyword Cluster Shifts	"Where are we gaining or losing visibility?"	AM + AD
3	Conversion & Content Impact	"What's driving leads and ROI?"	AM + AD
4	Strategic Initiatives & Next Month's Focus	"What's next, and how does it align with business goals?"	AD

Slide 1: Executive KPI Overview

Purpose: Set context for the conversation — what happened and why it matters.

Included On Slide:

- **Core KPIs:**
 - Organic Sessions (vs. NSM goal & MoM trend)
 - Verified Organic Leads (VOBs) or Calls
 - Conversion Rate (if available)
- **Visual:**
 - Simple 2-line bar or sparkline chart showing trend vs. goal
- **1-2 Insight Lines:**
 - What's driving the movement
 - What the data means in business context

Example Copy:

"Organic sessions up +9% MoM, driven by strong IOP and detox cluster visibility. Lead volume holding steady — consistent with seasonal dip across behavioral health."

Slide Owner:

- *AM pulls data; AD crafts the narrative insight.*

Trusted Advisor Lens: Start with confidence — your client should feel they're in capable hands before you ever touch a chart.

Lead with "here's what this means for your admissions funnel," not "here's what the graph says."

Slide 2: Keyword Cluster Shifts & What Moved the Needle

Purpose: Show the cause → effect between SEO actions and visibility trends.

Included On Slide:

- **Keyword Cluster Table (top 3–5 clusters):**

Cluster	Avg. Position Δ	Impression Δ	Click Δ	Primary Intent
IOP	+2.3	+21%	+14%	Transactional
Detox	+1.1	+12%	+8%	Informational → Transactional
Outpatient	-0.9	-4%	-6%	Informational

- **Highlight 2–3 Cluster Takeaways:**
 - "IOP cluster continues to lead traffic and conversions."
 - "Outpatient cluster dipped slightly — adding supporting internal links and refreshes next month."
- **Visual (optional):**
 - Heat map or stacked bar showing cluster momentum.

Slide Owner:

- *AM gathers data; AD writes insights and takeaway bullets.*

Trusted Advisor Lens: Avoid raw rank talk — focus on intent and business value.

Example: "We're gaining in high-intent detox searches, which directly supports admissions goals."

Slide 3: Conversion & Content Impact (30-Day Lookback)

Purpose: Connect last month's SEO work to tangible outcomes.

Included On Slide:

- **Top Conversion Pages (3–5 URLs):**

Page	Conversions	Δ vs. Last Month	Notes
/admissions	47	+18%	Stronger map visibility + internal links
/treatment-programs/iop	31	+12%	Higher CTR post-content refresh

- **Content Published ~30+ Days Ago:**

Page	Indexed?	Ranking	CTR	Next Step
/blog/outpatient-vs-inpatient	✓	#8	2.3%	Add FAQ schema
/blog/how-long-detox-takes	✓	#5	4.1%	Monitor traffic growth

Narrative Focus:

- What's performing → what's maturing → what's next.
- Highlight one content success and one optimization opportunity.

Slide Owner:

- *AM pulls metrics; AD ties results to past deliverables and business impact.*

Trusted Advisor Lens: Frame this as ROI realization — “This is where your investment is starting to show up.”

Don't just show performance; teach them *why it's happening*.

Slide 4: Strategic Initiatives & Next Month's Focus

Purpose: End forward-looking — show proactive planning and alignment.

Included On Slide:

- **Strategic Initiative Progress:**
 - Site structure or technical project updates (in progress / complete / at risk)
 - Content pillar development status
 - CRO or UX testing overview
- **Next Month's Top 3–4 Priorities:**
 - Strengthen high-performing clusters
 - Optimize underperforming conversion pages
 - Coordinate with PPC on retargeting or new launches
 - Seasonal content or local campaigns
- **Risks / Dependencies:**
 - “Waiting on updated program details before next content sprint.”

Visual Options:

- Simple timeline, 2-column table, or roadmap visual (Current → Next).

Slide Owner:

- *AD leads narrative and roadmap; AM supports with details.*

Trusted Advisor Lens: End with leadership, not reporting.

Example: "Here's how we're adjusting strategy to stay aligned with your growth goals."
