

SEO Bi-weekly Meeting: Iris Healing

Attendees:

Date: Feb 26, 2026

Purpose:

To review recent SEO progress, share quick wins, and align on upcoming priorities that support your business goals.

1. Performance Pulse & Key Insights

- **Organic Sessions QTD:** 3,091 → Goal: 7,178 (43.06% of goal for the month)
 - Pacing is behind, concentrated in a handful of landing pages (e.g., /blog/what-is-a-high-dose-of-klonopin).
 - Also of note, the article about what Adderall does if you don't have ADHD was a major contributor to traffic Q1 2025. This was on par with the media attention Adderall was receiving at this time.
 - Performance has also been affected by the December 2025 Core Google Update.
 - Next sprint: optimize underperformers and track lift in GSC (clicks, impressions, CTR, position).
 - Technical site optimization will play a larger role in March as well. See table below for details.
- **NSM Metric QTD:** 279 → Goal: 438 (63.70% of goal for the month)
 - Performance is pacing ahead of target.
 - We'll continue monitoring to ensure momentum holds through month-end.

2. Progress & Quick Wins

- Review key updates and deliverables from the past two weeks.

Area	What We Did / Learned	What's Next
New & Updated Content	Published 3 new pages: How Long Does Paws Last Alcohol How to Taper off Xanax What We Treat	New Pages: How to Help Alcohol Withdrawal Alcohol Abuse Signs Optimizations: What We Treat What is a high dose of klonopin
Technical Maintenance	No data to go off of.	Resolve canonicalised URLs. Fix 198 images (for size).

3. Partnership & Alignment

- Open discussion: feedback, lead quality, new initiatives, or observations.
- Confirm next steps, responsibilities, and upcoming deliverables.
