

SEO Report | February 2026

Southern California Sunrise Recovery

Produced By: Olivia & Carmen

Date: March 3, 2026

QTD Key Performance Indicators

Organic Sessions

11,298

Goal: 46,151 | [Q1]

-30% behind goal

VOBs

147 Calls

Jan: 114

+28% MoM

VVOBs

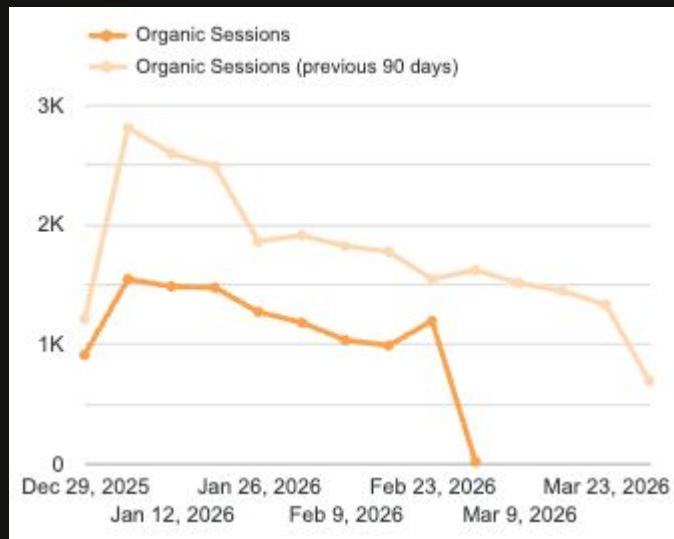

13 VVOB

Jan: 5

+160% MoM

The 0.6% "Make a Call" conversion rate is positive after the site restructure.
There are 63 potentially viable calls in CTM that still need tagging for February.

Traffic increased by 22.1% in under two weeks, starting from 8,538 visits.
This is a positive sign that google is recognizing the quality we're putting in.

Top Conversion Locations for Feb 2026

Tracking Source	# of Leads	# of VVOBs	Conversion Rate
Google My Business	96 (24%)	13(333%)	13.54%(247%)
Multi-Organic Search	47(27%)	0(-100%)	0.00% (-90%)

GMB conversion rate skyrocketed in February, even though GMB interactions are down 15% from Jan to Feb 2026

Most of the Leads we saw for Multi-Organic search were still on substance-abuse related pages

Google Search Console Performance

Note: Volatility is expected as Google recrawls & recategorizes your site

Feb 1, 2026 - Feb 28, 2026

↓ -17.0%

Scaling with a Treatment Center–Specific SEO Funnel

WHAT

- **Increase calls and VOB-ready leads** by aligning SEO content to *real patient intent* at every funnel stage
- **Build trust from symptom recognition → decision → post-admission confidence**

HOW? SEO mirrors the patient decision journey

- **Capture Demand Early**
Awareness → Education
Answer symptom- and risk-based questions before users identify as “needing rehab,” building trust and topical authority early.
- **Guide Evaluation**
Solutions → Comparisons
Create treatment-focused and geo-specific pages that help users compare levels of care, facilities, and treatment options.
- **Convert With Clarity**
Decision → Trust
Remove friction with clear insurance messaging, admissions CTAs, and credibility signals to convert VOB-ready intent.

Keyword Tracking

Query Groups by Topic	# of Queries	% Δ	Clicks	% Δ	Impressions	% Δ	Notes
Mental Health Conditions	10085	-6.57%	586	-52.05%	110921	-4.13%	Traffic fluctuations are expected as Google continues to recategorize the site during our strategic pivot toward mental health.
Medications	3886	-23.25%	408	-17.41%	55156	-31.53%	Decline aligns with reduced focus on medication-specific content during the content audit and restructuring.
Substance Use/Alcohol/Drugs	4101	-35.87%	343	-31.40%	49015	-42.58%	Decline is expected as the site shifts away from substance-use-focused content and removes legacy pages.
Dual Diagnosis/Co-occurring	2466	-10.59%	172	-49.71%	38465	-14.39%	Slight volatility expected as related content is being reviewed and realigned with the new mental health positioning.
Other	8448	-22.94%	146	-47.29%	52462	-28.22%	Declines reflect broader content cleanup and de-prioritization of non-core topics during the audit phase.
Admissions/Help Now	747	-10.54%	8	33.33%	6867	13.19%	Increase in clicks and impressions is positive and aligns with stronger intent-focused traffic during the repositioning.

Supporting Strategic Initiatives

Initiative	Status	Notes
Remove & Redirect all SUD content.	Complete.	42 additional calls came from organic search linked to SUD pages, which has a low conversion potential.
Update content per audit.	In progress	Includes removal of SUD on existing pages.

Focus: High- or Mid- Level Rewrite, correct, polished, narrative flow, why SCSMHC stands out.
