Organic sessions increased from stronger IOP and Detox visibility supported by recent content and internal link updates.

Lead volume stayed stable with modest growth month over month, aligning with expected seasonal trends.

Conversion rate remains steady within target range with CRO testing planned to improve form completions.

MoM Keyword Performance

- IOP Keywords** continue to lead both visibility and conversions after internal linking
- Detox keywords** are trending upward as new FAQ and content refreshes mature.
- Outpatient Keywords** saw minor decline; optimization scheduled in next sprint.
